# ACT365 Typical Applications

## Multiple Sites – Retail/Restaurants

### Your Need:

- Reduce shrinkage and theft
- Reduce fraudulent claims by customers or staff
- Replicate solution across multiple sites

### Your ACT365 Solution:

- Complete access control and video solution (protect stock, cash and employees)
- Video playback, event reporting and alarms
- Deployable across multiple sites, report centrally, manage remotely

## Sites with limited IT Support

### Your Need:

- Protect your building, assets and employees
- Avoid the cost of PCs or servers
- Avoid IT costs associated with configuration, maintenance and back-ups
- Stay connected to your business

### Your ACT365 Solution:

- Complete access control and video solution (protect buildings, assets, employees)
- No need to purchase servers or PC's
- Automatic back-ups and redundancy
- Access ACT365 from anywhere, at any time, from any device
- Generate fire muster report. (PC, Smart Phone and Tablet)

## Membership-based Businesses (i.e. Gyms, Clubs)

### Your Need:

- Restrict access to only paying members
- Reduce fraudulent claims by members or staff
- Utilize mobile phones, cards or fobs as credentials

### Your ACT365 Solution:

- ACT365 integrates with club membership software
- Ensure only paid up members have access to facilities
- Video playback, event reporting and alarms
- Use pin codes, fobs or cards for access

## Construction Sites

### Your Need:

- Secure your construction site and its equipment
- Comply with Health & Safety Regulations
- Limited IT infrastructure local to the site

### Your ACT365 Solution:

- Complete access control and video solution (protect site, equipment and employees)
- Generate an accurate fire muster report (PC, Smart Phone & Tablet)
- Use GSM to enable communication

## Property Management/Rental Companies

### Your Need:

- Protect your building and tenants
- A security system that you can view centrally but manage remotely
- Easily administer and revoke credentials for tenants gates, car parks and doors

### Your ACT365 Solution:

- Complete access control and video solution
- Access all your ACT365 sites from anywhere, at any time, from any device
- Use pin codes, fobs or cards for access

## Remote Sites

### Your Need:

- To secure a remote site such as telecoms tower, water tower, or electrical substation
- Limited IT infrastructure local to the site
- Burden of administering cards, fobs or keys

### Your ACT365 Solution:

- Complete access control and video solution
- Use GSM to enable communication
- Use pin codes, fobs or cards for access
- Deployable across multiple sites
- Reports centrally, manage remotely

**ACT365** is a complete cloud based access control and video management solution that enables you to manage your security system from anywhere, at anytime.

### Access from Anywhere, Anytime and on any Device

ACT365 enables you to watch video footage, disable a user or open a door from any device at any time (PC, Laptop or Smart Phone), meaning that you can truly stay connected to your business wherever you are.

### No IT Investment or Headaches

You don't need a Local Server or a PC to run the software, as everything is accessed and managed via the internet. The system benefits from automatic updates, so you can rest assured you are always using the most up-to-date version.

### End User Benefits

- ✓ Associate recorded video footage with access control events
- ✓ Manage multiple sites from within a single interface
- ✓ Emergency Roll-Call/Muster reporting using smart phone or tablet
- ✓ Block access and perform system Lockdowns remotely
- ✓ Smart Phone App for iOS and Android

### Scalable system supports:

- ✓ Traditional Wiegand devices via ACT365-ACU
- ✓ Schlage ENGAGE Series LE & NDE Locks via ENGAGE Gateway
- ✓ Integrated video via ACT365-VCU

### Schlage® ENGAGE Series Lock Integration

Schlage ENGAGE LE and NDE wireless locks help extend electronic access control deeper into the building beyond traditional perimeter openings.

- ✓ Designed to be easy to install, connect, manage and use
- ✓ Networked real-time communication with the ENGAGE Gateway
- ✓ Easy to retrofit; installs in existing mechanical door prep
- ✓ Wireless connectivity eliminates the need to run wires to interior doors, concrete openings and remote locations
