ACT365 Typical Applications

Multiple Sites – Retail/Restaurants

Your Need:

- Reduce shrinkage and theft
- Reduce fraudulent claims by customers or staff
- Replicate solution across multiple sites

Your ACT365 Solution:

- Integrated access control and video solution (protect stock, cash and employees)
- Video playback, event reporting and alarms
- Deployable across multiple sites, report centrally, manage remotely

SME's with limited IT Support

Your Need:

- Protect your building, assets and employees
- Avoid the cost of PCs or servers
- Avoid IT costs associated with configuration, maintenance and back-ups
- Stay connected to your business

Your ACT365 Solution:

- Integrated access control and video solution (protect buildings, assets, employees)
- No need to purchase servers or PC's
- Automatic back-ups and redundancy
- Access ACT365 from anywhere, at any time, from any device
- Generate fire muster report. (PC, Smart Phone and Tablet)

Gym

Your Need:

- Restrict access to only paying members
- Reduce fraudulent claims by members or staff
- Utilize mobile phones, cards or fobs as credentials

Your ACT365 Solution:

- ACT365 integrates with club membership software
- Ensure only paid up members have access to facilities
- Video playback, event reporting and alarms
- Use pin codes, fobs or cards for access

Construction Sites

Your Need:

- Secure your construction site and its equipment
- Comply with Health & Safety Regulations
- Limited IT infrastructure local to the site

Your ACT365 Solution:

- Integrated access control and video solution (protect site, equipment and employees)
- Generate an accurate fire muster report (PC, Smart Phone & Tablet)
- Use GSM to enable communication

Property Management/Rental Companies

Your Need:

- Protect your building and tenants
- A security system that you can view centrally but manage remotely
- Easily administer and revoke credentials for tenants gates, car parks and doors

Your ACT365 Solution:

- Integrated access control and video solution
- Access all your ACT365 sites from anywhere, at any time, from any device
- Use pin codes, fobs or cards for access

Remote Sites

Your Need:

- To secure a remote site such as telecoms tower, water tower, or electrical substation
- Limited IT infrastructure local to the site
- Burden of administering cards, fobs or keys

Your ACT365 Solution:

- Integrated access control and video solution
- Use GSM to enable communication
- Use pin codes, fobs or cards for access
- Deployable across multiple sites
- Reports centrally, manage remotely

ACT365 is a cloud based access control and integrated video management solution that enables you to manage your security system from anywhere, at anytime.

Access from Anywhere, Anytime and on any Device

ACT365 enables you to watch video footage, disable a user or open a door from any device at any time (PC, Laptop or Smart Phone), meaning that you can truly stay connected to your business wherever you are.

Cloud Based Muster Reporting (Health & Safety)

Using the **FREE** ACT365 App you can take advantage of real time muster reporting on any tablet or Smart Phone, and no need to wait for an emergency list to print.

Benefits at a glance

- ✔ Associate recorded video footage with access control events in a single system
- ✔ Always get video verification of cardholder with live views of doors
- ✔ Access from anywhere, at anytime and on any device
- ✔ Compatible with leading browsers (Internet Explorer, Google Chrome, Firefox)
- ✔ Smart Phone App for iOS and Android

No IT Investment or Headaches

You don't need a Local Server or a PC to run the software, as everything is accessed and managed via the internet. The system benefits from automatic updates, so you can rest assured you are always using the most up-to-date version.

Multiple Sites

If you have a multi-site business ACT365 helps you to manage all your sites and users from a single, unified friendly interface. PLUS deploying ACT365 across multiple sites is extremely cost effective as there is no need to purchase a local PC for each site.
