ACT Enterprise has been updated to Version 2.8.0.50. This latest version of the access control software solution addresses the following bugs via hotfix.

1. SPC panels were not appearing in Sitemaps in Version 2.8.0.49. This issue has now been addressed following this update.
2. Doors were not migrating from the ACTWin database when using the Migration tool with ACT Enterprise 2.9.0.49. This issue has now been addressed following this update.
