

**PRODUCT TYPE:** ACCESS

**PRODUCT NAME:** ALIRO

**MODEL(S):** VARIOUS

**CATEGORY:** PHASE-OUT

**CONTACT:** Local Sales Representative

**DATE:** 2020-07-29

In August 2018, Vanderbilt announced that the ALIRO portfolio entered maintenance mode and that the End of Life (EOL) of ALIRO would take place in Q4 2019.

The EOL date for the ALIRO portfolio is unchanged. The EOL of life date is (was):

- **31 December 2019**

(Please contact your local sales representative if any clarification is required)

Vanderbilt understands that EOL notices can be disruptive for our customers. Although it is never easy to make EOL decisions, Vanderbilt continues to move forward with developing innovative Access systems and solutions. Alternative systems to consider are our offerings under the ACT portfolio, SiPass Integrated portfolio, or OMNIS portfolio (Region restricted – NORDIC only).

As part of the phase-out process, Vanderbilt will hold necessary inventory to honor warranty obligations.

**ALIRO WEB SERVICE CENTER**

The Aliro web service center, which facilitates the distribution of the latest software, request for, or registration of a product key, will officially be shut down on 31 October 2020.

Vanderbilt will maintain the ability to address exception queries pertaining to product keys. Please contact your local technical services team if support is required relating to product keys.

**SUPPORT**

The portfolio is in warranty status, meaning all development, feature correction, or update and issue investigation will not be supported.
