

ACRE Aspire Partner Program

Advancing security through cutting-edge partnerships

? What is Aspire?

Aspire's key theme is about a healthy and mutually rewarding partnership between ACRE and its customers. The partner loyalty program is aimed at helping installers and distributors perform more efficiently against today's market demands.

👥 Who is eligible?

The program is open to installers, system integrators, distributors and wholesalers that do business directly with ACRE. The program also accepts indirect customers buying from a registered ACRE distributor.

✓ What are the benefits?

The program has four membership levels, Registered, Silver, Gold and Diamond. Each comes with a higher level of benefits. The benefits of the Aspire program are two-fold: support your daily business through sales advantages and online tools and resources but also create the chance for personal contact and networking opportunities.

⚙️ How does it work?

ACRE is continuously developing its training tools and enhancing the quality and capabilities of its support to serve installers better every day. On the distribution side, providing efficient marketing and sales support, plus extended technical and engineering support aims to give customers an edge over their competition.

🤝 Why should you join?

We are one of the only players in the market that can offer technology from access control, intruder detection, transmission and connectivity disciplines on a global basis.

📝 How to sign up?

Signing up is easy. Just visit the website and click **"Register today"** on the **Loyalty Program page** to join, or click here: www.acre-int.com/partners/loyalty-program
