SPC Connect:

Get connected,
take control

To download this app for **free**, simply scan the code with your smartphone camera!

vanderbiltindustries.com/spc-connect

SPC Connect puts you in control of your intruder detection system wherever you are. As the system user, you can utilize an attractive, ergonomic and easy-to-use mobile application or web browser connection that provides you with powerful interfaces to control your SPC intruder system from anywhere, at any time.

SPC Connect at a glance:

View and control

Monitor and control the status of your premises from any location, set or unset your system, check event logs and receive email alerts.

Live Camera viewing

All IP cameras connected to SPC allow for remote viewing of live images around the clock.

Door control

Remotely set all doors controlled by SPC to permit or restrict access.

Graphical map

A graphical map provides you with the option of adding multiple layers visualizing the installation and lets you quickly see the status of your premises.

User Management

Remote access and control of who can remotely access your system and premises via internet or mobile app.

Email notification

Provides direct email notifications to your maintenance contractor if faults or other events occur on any panel so they can take action remotely.

Encrypted, safe, reliable connections

Financial grade SSL ensures the highest standards of security are maintained at all times in order to offer total peace of mind.

Multi-Site

Manage several sites from any remote location with ease and switch between locations at will.
