Re-working & streamlining ComNet Europe’s portfolio – Pricing:

The streamline activities of our Media converter portfolio were announced on [31 March 2020](#). This work will be carried out by replacing aging fixed optic technology with open standards SFP based solutions.

As a consequence of that initiative, the remaining portfolio now has a price reduction for the products listed below from 1 June 2020.

For detailed information about the new prices, please contact your Sales representative or our Customer Service team.

The following products are affected:
