Rework and streamline of ComNet Europe portfolio:

This communication announces the planned reduction of SKUs in our Switch portfolio. Our intention is to simplify our product range but to maintain solutions. As such, we shall replace our standard POE Switches with POE HO product but retain the POE price point. The phase-out will commence from 31 March 2020 with the products from our Switch category listed below. **Please note the alternative solutions that we propose.**
