Eventys

More than you need for less than you'd think
future-proof IP video surveillance from Vanderbilt

vanderbiltindustries.com

Eventys is the perfect range of video surveillance equipment for applications that require cost-effective, easy to set up systems from a supplier that delivers end-to-end security solutions and superior customer services.

Eventys Network Video Recorders

Simple to set up and operate, Eventys network video recorders offer powerful, seamless, reliable, yet inexpensive video recording of up to 16 IP cameras.

All Eventys NVRs come with built-in PoE switches and offer automatic camera detection. H.264+ high compression* and optimized codec technology reduce storage consumption by up to a third and make image transmission and storage quicker and easier too. There are three NVR versions available for Eventys. These are the 4 channel, 8 channel, and 16 channel variants**.

Eventys NVRs come with a wealth of free software that enable the customer to access the system remotely such as RAS (Remote Access Software), Webview, and the Customer App. This app allows the customer to view both real-time and recorded footage on the go. Other free software includes the Disc Space Calculator and the Bandwidth Calculator.

*2 & 4MP Wide Dynamic Range and NVRs

**Hard drives not included
