ACT365 is a cloud-based access control and video platform that works with most modern browsers and includes an Android and iOS mobile app. For more information on ACT365 go to <https://vanderbiltindustries.com/act365> and to sign up go to ACT365 portal <http://www.act365.eu>

SPC Connect is a cloud-based solution designed for monitoring, managing and maintaining SPC Panels remotely. For more information on SPC Connect go to <https://vanderbiltindustries.com/spcconnect> and to sign up go to SPC Connect portal <https://spcconnect.com>.

Pricing Change:

In an effort to harmonize and simplify billing for all Vanderbilt cloud-based products from 2019 onwards, Vanderbilt has chosen to communicate pricing in months but bill annually using a €1, €3, €8 / month pricing model.

Billing shall commence from the beginning of the month after installation to the end of that year and after that the following year in advance. In subsequent years, the installer will be billed at the beginning of each year (a year in advance).
