END OF LIFE/PHASE OUT

VANDERBILT

PRODUCT LINE: ACCESS

PRODUCT: 5311 Cotag Reader IF

MODEL: VGBI 52-110 **CATEGORY:** END OF LIFE

CONTACT: Local Technical Support **DATE:** 09-07-2018

Due to obsolescence with respect to a critical component, Vanderbilt are unable to produce this product any further. Although there is no alternative to this product within our overall access portfolio, due to the approaching end of life of the Cotag card technology, there is no logical reason to re-design the product to address this issue.

We have some remaining stock. This will be available until exhausted.
