

**PRODUCT LINE:** ACCESS

**PRODUCT NAME:** OMNIS

**MODEL(S):** New PSUs

**CATEGORY:** RELEASE

**CONTACT:** Local Technical Support

**DATE:** 2018-11-21

The new range of PSUs for Omnis are now released. They are third-party branded. To distinguish between the manufacturers' standard PSU and the Omnis version, Omnis also carry the Vanderbilt part number on the product label. We are expecting to have stock available beginning of week 50.

**Please Note:**

- The software interface between Omnis and the new PSUs is not yet available. This will be available in the next release of the Omnis software. In the meantime, the PSUs have to be supervised using physical inputs in Omnis.
- The PSUs will have to be re-flashed with the latest FW once the soft integration to Omnis is available. Only PSUs carrying the Vanderbilt article number will be possible to upgrade, not the manufacturers' standard PSU.

Article Number	Name	Description
N54506-Z110-A100	P3	Omnis PSU 3A
N54506-Z111-A100	P5	Omnis PSU 5A
