PRODUCT:	ACT365-VCU		
MODEL:	ACT365-VCU	CATEGORY:	RELEASE
CONTACT:	Local Technical Support	DATE:	16-07-2018

The ACT365-VCU, without power supply (article number V54502-C140-A100) is officially released. Initial stock is in place and delivery would be immediate on receipt of customer orders.

The power supply versions ACT365-ACU2A, 2A power supply (article no. V54502-C131-A100) and ACT365-ACUPoE, PoE versions (article No. V54502-C132-A100) will be available during Q4.

Note: use of the ACT365-VCU requires the installer to register use and subscribe to the ASCT365 portal.

Installer signing up for ACT365

- Step1: Go to www.ACT365.eu
- Step2: Select “Sign Up to ACT365”
- Step3: Follow the online instructions

Recurring charges

1. The recurring charges are
 - a. €40 (£36) per ACU/door per year
 - b. €100 (£90) per VCU per year
2. At the beginning of each year, the installer will receive one invoice to cover the full year in advance.
3. Invoices are raised in the first week of January and are based on the number of ACUs & VCUs activated on the system at the end of the previous year. i.e. For 2019 it will be based on the numbers at 31 December 2018
4. During 2018, the installer will be adding ACUs & VCUs to the system. These will be invoiced for by means of a catch-up charge on the next annual invoice issued (January 2019).

The catch-up charge will be pro-rated, for example:

- Door added 1 Jul 2018 will have a catch-up charge of €20
 - Door added 1 Oct 2018 will have a catch- up charge of €10
5. The 2019 invoice will contain two elements
- a. Charge for 2019 in advance based on number of ACUs & VCUs activated at 31st December 2018.
 - b. Catch-up charge for ACUs & VCUs added during 2018.
