CATEGORY: Product update

CONTACT: Local tech support

DATE: 2017-05-24

The sales block on CD30 CODOOR has been removed with immediate effect. The affected units have been returned, reworked, tested, and are now open for sale. The first delivery of 540pcs is expected this week.

The CD30 will not support ASSA 310 and 410 locks as specified in the installation manual. This will be handled in a separate project. R&D and GTS have identified a solution and are actively working towards the change implementation. The first delivery of ASSA 310 and 410 compatible devices is expected by the end of July.
