

PRODUCT LINE: ACCESS
PRODUCT NAME: Aliro
MODEL(S): MP1.15 SP4 **CATEGORY:** Product Update
CONTACT: Local Tech Support **DATE:** 15-08-2017

A new service pack release for Aliro MP1.15 SP4 will be available from the Aliro Service center, www.aliro-accesscontrol.com, from August 15th.

Aliro MP1.15 SP4 addresses the following issues: restoring large databases; prevention of cards being registered with “card number already exists error”; and incorrect display of “reader mismatch” errors. Documentation has been updated to reflect Alarm Disable under card or card and PIN modes. Report creation has also been enhanced to provide faster reports for the customer.

This Aliro service release replaces the current active version 1.15 SP2.
