

PRODUCT TYPE: INTRUSION

PRODUCT NAME: SPCPro

CATEGORY: Updated version

MODEL(S): 3.7.3

DATE: 10/2/2017

CONTACT: Your local Customer Service organization

This update to SPC Pro is to address an issue in the FlexC-Event Exceptions that caused the mapping of the event exceptions to be incorrect. This has now been resolved. SPC Pro 3.7.3 will be available for download from SPIAP on February 19. SPC Pro shipped with the SPC product will not be updated.
