

**PRODUCT LINE:** INTRUSION

**PRODUCT NAME:** Acoustic Glass Break Detectors

**MODELS:** AGB600, AD700, AD700-AM,  
AGB800 & AGB800-AM

**CONTACT:** Local Tech Support

**CATEGORY:** New Product Information

**DATE:** 2017-05-11

**Current Range of Acoustic Glass Break Detectors**

The AGB600 has reached end of life and a small quantity remain in stock. The AD700 & AD700-AM detectors have been placed on phase out and the remaining stock will be sold out. The GT2 test device is compatible with AGB600 detectors and will be phased out. The ADT700 test & calibration device will remain compatible with the existing AD700, AD700-AM and the replacement detectors.

**Replacement Range of Acoustic Glass Break Detectors**

The next generation of Vanderbilt acoustic glass break detectors will be available in week 25. The AGB800 has EN50131 grade 2 approval and will have VdS class B approval. The anti-mask version, AGB800-AM, has EN50131 grade 3 approval and will have VdS class C approval.
