

PRODUCT LINE:	INTRUSION		
PRODUCT:	SPC Connect		
MODEL:	IOS V1.06	CATEGORY:	NEW RELEASE
CONTACT:	Local Tech Support	DATE:	26-04-2018

The new app provides SPC Connect system users many enhancements that will expand the service offering to end customers. The IOS app will be released to the App store on 27 April 2018. Updates will then start to appear on your customers' devices.

Key Features:

- For customers who have cameras or audio devices connected to their SPC, you will now be able to talk and listen to site and/or view the images from your site live. Should an alarm occur you will also be able to view the video and/or listen to the audio at the time of the alarm. This information can be stored and exported to your device. Contact your installer for more details.
- Staying connected: Vanderbilt work in cooperation with your installation company to offer services and to ensure your system is serviced and protected. Information from your security company will now be available from within the SPC Connect mobile application.
- Layout change: Accessing Push Notification settings is now more intuitive. Accessible from 'Settings' -> 'Panels' menu.
- Data protection in compliance with the upcoming GDPR requirements. The data protection policy for the SPC Connect service has been enhanced to clarify your rights on how we use your data. This is available from Terms and Conditions.
- General bug fixes/improvements.

Please note:

Push notification is not a substitute for professional monitoring. Vanderbilt cannot guarantee the delivery of push notifications.
