

PRODUCT LINE: INTRUSION

PRODUCT: SPC

MODEL: Enhanced Wireless SPC 3.9.0 firmware **CATEGORY:** NEW PRODUCT

CONTACT: Local Tech Support **DATE:** 10-07-2018

Vanderbilt’s enhanced wireless portfolio has been released. This includes a new transceiver SPCW120.000 and a range of wireless devices. To support this range of products, SPC 3.9.0 firmware is required. SPC 3.9.0 firmware is available for download [here](#) from 12 June 2018. Firmware 3.9.0 is compatible with the original Si-Way and the enhanced wireless systems.

Note: The firmware delivered on SPC systems will continue to be SPC 3.8.5. Where regional approved systems are required, please use SPC 3.8.5 with the original Si-Way devices. The following wireless devices are in stock ready for delivery:

Product Type	Product Image	Model Name	Description
RF Module		SPCW120.000	Wireless Panel txer w. Antenna
PIR		WPIR	Wireless 12m PIR detector PET
Curtain PIR		WPIR-CRT	Wireless PIR curtain PIR detector
Magnetic Contact		WMAG	Wireless Magnetic Contact slim
