MODEL(S): SPCG310, SPC

CATEGORY: Approvals update

CONTACT: Local Tech Support

DATE: 2017-04-12

The SPC control panels with firmware version V3.7.1 and the E-Bus Gateway SPCG310 successfully achieved VdS and EN approval. Please note, that the EN and VdS security grade depends on the SPC control panel used. The certificates can be found on the Vanderbilt support website. A brief overview can be found below.

The following system products have achieved EN grade 2:

- SPC4320 (G2 housing)
- SPC5320 (G2 housing)
- SPCG310 (Mounted in G2 housing)

The following system products have achieved EN grade 3

- SPC5330 (G3 housing)
- SPC6330 (G3 housing)
- SPCG310 (Mounted in G3 housing)

The following system products have achieved EN grade 3 **and** VdS class C

- SPC5350 (G5 housing)
- SPC6350 (G5 housing)
- SPCG310 (Mounted in G5 housing)

Other sub-components such as Magic motion detectors and Sintony enclosures, power supplies, keypads, and expanders are also referenced in the VdS certificate with their associated VdS and EN security grade. Please review the approval documents for further information.
