Our lens supplier has announced that they are phasing out their current lenses. Because of this, we will be phasing out the below lenses. The product will be set to Status 50 (sell-out stock) in SAP. We will inform you of alternative product replacements for these lenses as soon as possible.

As only day/night cameras are in our current lens portfolio, only replacement lenses with IR correction will be needed. Two new lenses are also being worked on: 2.7-13mm and 5-50mm.
