PRODUCT: Eventys keypad integration into Vectis iX

MODEL: See below **CATEGORY:** INFORMATION

CONTACT: Local Tech Support **DATE:** 2018-10-12

Eventys keypad integration into Vectis iX:

The Eventys keypad is now integrated with the new Vectis iX FW 2.13.2.148. This allows the use of the Eventys keypad in both the Eventys range and Vectis iX range. Please make sure to use the latest Eventys keyboard FW V1.0.1 build 181009. The FW will be stored on SPIAP and can be downloaded.

Launch of further new Vectis iX NVR SW Version R 2.13.2.148, Features:

- SNMP
- Support ONVIF Edge Recording
- Support non-Admin user for NVR Manager/CMS Manager/RAS execution
- Improve video display performance by using GPU (QSV & Nvidia) for decoding.
