

PRODUCT LINE: INTRUSION

PRODUCT: SPC

MODEL: SPC Manager **CATEGORY:** SERVICE PATCH

CONTACT: Local Technical Support **DATE:** 2021-08-31

Vanderbilt is pleased to release the service patch for the SPC Manager remote user management software to support latest OS and SQL versions. Vanderbilt’s SPCS610 SPC Manager allows for the remote configuration of users, calendars, doors and profiles on SPC Panels.

Key Features include:

- Users be added to multiple panels
- SPC Panel control
- SPC Panel status information
- Embedded operator management
- Reporting on SPC panels and operators

The patch will provide the support of Windows 10 and Windows Server version 2019 and the following SQL versions “2016, 2017, 2018”. The plugin will be available from Vanderbilt from 31 August 2021. Vanderbilt’s SPC Manager is compatible with all SPC IP-based intrusion systems with Firmware 3.6.6 or later.
