

PRODUCT LINE: ACCESS

PRODUCT NAME: SiPass Integrated

CATEGORY: PHASE OUT INTENTION

MODELS: AC5200 SiPass integrated ACC-Lite

CONTACT: Local Technical Support

DATE: 2021-08-03

The following products are moving towards the end of their life cycle. We are now offering last time buy opportunities for the products.

The reasons for the phase-out are that:

- Certain component obsolescence
- Reduction in sell-through rates on both products

Material Number	Material Description	Current Stock	Incoming Stock	Months Of Supply
S54507-C5-A1	AC5200 SiPass integrated ACC-Lite	8	89	5
V54507-C5-A1	AC5200 SiPass integrated ACC-Lite	3	160	16

There will be no direct replacement for the ACC-Lite. The product will change phase-out status intention immediately and move to sell-out status upon receiving final forecasts.

We now request these additional forecasts for the two products listed above to be provided to the Supply Chain Management team and Product Management team. We require forecasts to be submitted by 13 August 2021. We have the opportunity to increase the last time buy quantities to support projects but require information as soon as possible.

Warranty stock will be blocked accordingly.
