- Create a SAP purchase order
- Complete order form from webshop download here and follow steps in this form.

Upgrade of an existing license > possible up to 30.06.2021. Afterwards 2.80 must be used
- Calculate one ASU5000-UC Upgrade credit (P54511-P13-A1) per licensed Client
- Create a SAP purchase order
- Complete order form from Webshop download here and follow steps in this form.
- If a direct upgrade is not possible, any needed license will be provided together with the 2.76 license.

E.g. 2.30 is the current license: 2.40 => 2.50 => 2.65 => 2.76

Expand an existing License
- 2.75/2.76 licenses can be unlimited expanded
- 2.70 and 2.65 licenses can only be expanded with additional doors, cardholders or workstations
- no function expansion possible
- 2.60 and older no expansion possible, update to current SiPass version required first

(update and expansion can be ordered together)
- Create a SAP purchase order
- Complete order form from Webshop. download here and follow steps in this form.

NOTE:
SiPass 2.76 use 2.75 licenses, no need to order an
update or ask for an 2.76 license. Any 2.75 license can be used to upgrade to 2.76. New released
