

PRODUCT LINE:	ACCESS		
PRODUCT:	VCredential		
MODEL:	BLUE-L, BLUE-A, BLUE-B, BLUE-C, BLUE-D	CATEGORY:	RELEASE
CONTACT:	Local Technical Support	DATE:	2020-11-26

SiPass integrated has been added to the list of supported Access Control Systems for the Vanderbilt Bluetooth reader range. To display the correct card number in SiPass, a configuration card is required to change the default settings of the Bluetooth readers. Please contact our customer service teams for more details.

SiPass integrated customers are now able to use the full potential of VCredential, Vanderbilt’s new cloud-based credential management platform, that offers users the ability to create and manage Bluetooth credentials independent of the access control platform.

A – Order information

Product name	Order number	Product Description
